

Corona Cheese! Yes, you heard it right. Let us take a moment to acknowledge the fact that our cheese brand sounds eerily familiar, perhaps because of the whole...ahemm... pandemic situation. We hope that your mind will be at ease once you hear our story.

OUR STORY

It all began when the very first cheese maker of India whispered to a little boy, “One day when you grow up, I will teach you cheese making.” This moment led to the inception of an idea which decades later culminated into a cheese factory.

In the 2000’s, the void in the Indian cheese market for affordable, healthy cheese was quite evident. Before we knew it, our founders’ love and passion for experimenting with food led us to develop several different types of cheese all under one roof. It took years of blood, sweat and tears with occasional cheese nibbling to get where we wanted and we are proud of having braced through some trying times.

Now that we are here, our intention is to enhance everyday food tasting experience and get earthlings to explore the gastronomical world with their taste buds. We love connecting and interacting with health conscious foodies so come visit us, drop a text or just call to let us know what you think about our cheese.

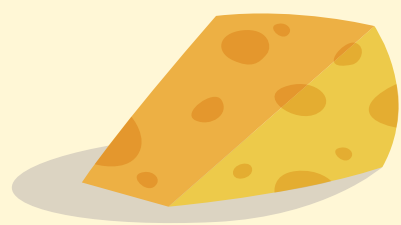

OUR PRODUCT RANGE

🧀 CHEDDAR
🧀 PARMESAN
🧀 GOUDA
🧀 EDAM
🧀 EMMENTAL
🧀 PIZZA CHEESE

🧀 MOZZARELLA
🧀 QUATTRO FORMAGGI

🧀 SOUR CREAM

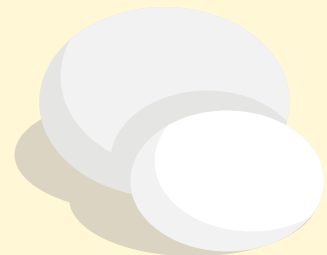

🧀 MASCARPONE
🧀 RICOTTA
🧀 SMOKED CHEDDAR
🧀 SMOKED SCAMORZA
🧀 SMOKED PROCESSED ROLL
🧀 ARTISANAL BUTTER

PIZZA TOPPING

Pizza Cheese

Pizza cheese is the perfect blend of various types of cheese for homemade pizzas, sandwiches and toasts.

Mozzarella

Mozzarella's ooey-goey texture is perfect for all sorts of pizzas and pasta. It's milky sweetness goes well with sliced tomatoes and basil in caprese salad..

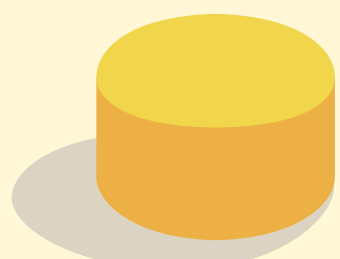

Feta

Feta is remarkably versatile and can be used anywhere that calls for a salty cheese. It is great in appetizers, side dishes, and as an ingredient in salads, filled pies, and pastries. Feta is often used as a pizza topping for a unique flavour.

Quattro Formaggi

Cheesy garlic bread and grilled cheese sandwiches are a delicious delight when topped with our Quattro Formaggi shreds.

Processed Cheese

Processed cheese can be used with your favourite salad, omelette, or any other meal. It can be grated as a topping on your pizza and pasta or it can be used as a dip for a snack or even spread on your breakfast toast.

BAKER'S DELIGHT

Cream Cheese

Cream cheese is a fantastic spread for crackers and bread. It is a popular choice for the base of any dip. It is the main ingredient in cheesecakes and is used for making frostings. It can also be used in place of butter to bake cakes or cookies.

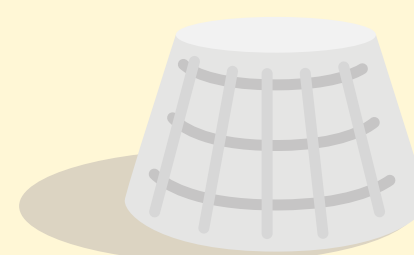

Sour Cream

Sour cream makes for an excellent base for dips and sauces or can be added to salad dressings, stuffed in tacos, tortillas, quesadillas and burritos or be baked to make some heart-warming cheesecakes or doughnuts.

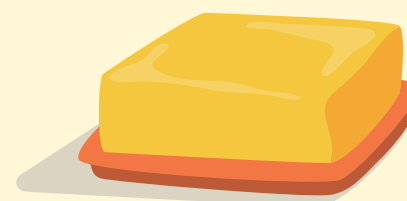

Mascarpone

Rich and creamy mascarpone can be added to both sweet and savoury dishes. It is the main ingredient in Tiramisu dessert. For a savoury use, one can add mascarpone to thicken soups, stuff chicken breasts, spread on a pizza instead of tomato sauce or added to scrambled eggs

Ricotta

Ricotta is also commonly used in savoury dishes such as pasta, calzone, pizza, lasagne and ravioli. Try it with corn, pesto and tomatoes, or a fried egg. It can also be eaten for dessert: had with honey and strawberries or banana and Nutella.

Butter

Butter is widely used in baking to add texture and volume to baked goods and desserts. Additionally, it can be spread on bread, roasted veggies, pasta dishes, pan-frying and has many other cooking applications.

HARD CHEESE

Cheddar

Cheddar cheese is usually eaten by itself. Other ways of enjoying this cheese are to be eaten with crackers or to use it in soup, sauces, and dips. It can also be melted on snacks like mashed potatoes, nachos, and macaroni and cheese.

Parmesan

Parmesan is a lovely appetizer, popular for snacking on its own or with crackers. It is best served grated on pasta and is also added to pizza, omelettes, soufflés, fondues, etc.

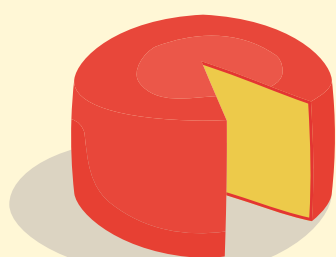

Gouda

Gouda, a mild flavoured cheese that melts well is often used in homemade macaroni and cheese. It is great for cheese-based soups, mashed potatoes, grilled cheese sandwiches and fondue. It's also a great addition to a cheeseboard.

Emmental

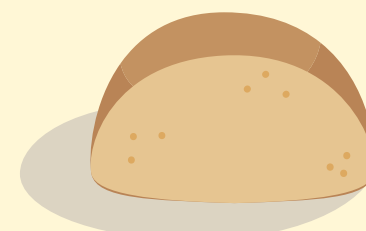

Emmental has very good melting properties, which makes it ideal for any dish that requires melted cheese such as cheese fondue, gratins and casseroles. Use it in grilled sandwiches, pasta and egg dishes for additional flavour.

Edam

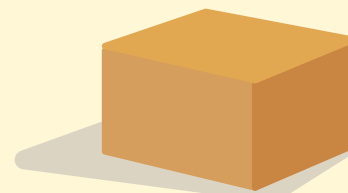

Edam's mild, smooth and slightly nutty flavour can be paired well with fresh fruits such as peaches and apples else had with crackers or bread. The Cheese melts well and is popular in cooking. It can be served at breakfast with eggs or melted in sandwiches.

SMOKED VARIETY

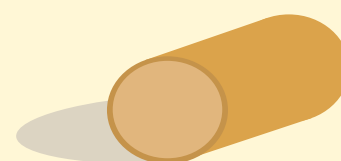

Smoked Scamorza

Smoked Scamorza has a subtle, smoky flavour with a sweet, light caramel note. Since it has excellent melting qualities, it is best known to flavour baking dishes. It can be used as a pizza topping to give a smoked flavour to the pizza

Smoked Cheddar

Smoked cheddar is delicious on burgers, sandwiches, soups, pasta and pizza. It can also be added to omelettes, souffles, au gratins, fondues, etc. It is best paired with dry red wine.

Smoked Processed Roll

Smoked cheese lends additional flavour to any cheeseboard. It goes great with tacos, grilled sandwiches or even fruits such as apples and grapes.
